➢ RAP Use
   • 100% Response – Again
   • 22 States Increased RAP Allowed
   • High RAP Experience in 23 States
   • High RAP/WMA Experience in 11 States
Surface Mixes – Allowed 2009

The map above illustrates the allowed surface mixes across different states in the United States for the year 2009. Each state is color-coded based on the percentage of surface mixes allowed, as indicated by the legend:

- Red: up to 100%
- Orange: 25%
- Dark Orange: 20%
- Green: 15%
- Dark Green: 10%
- Light Green: 0%
- Gray: n/a

The map highlights the varying regulations and allows for a visual comparison of surface mixes across the country.
Surveys

RMRC
- 35 Responses to Date
- Target Completion August 15
- “Not Allowed” for Many Items

NCHRP 20-05/Topic 40-01
- Properties and Applications of Recycled Materials and Byproducts for Use as Construction Materials
Funding

- RMRC Pooled Fund (7 States)
- Second Pooled Fund Proposal Soon
- Resolution for Support on Authorization
Relationships

- FHWA
- RMRC
- EPA
- State Environmental Agencies
- Industry
- Neighboring States
Challenge

- Get Involved
- Communicate Successes
- TS Chairs – Include Recycled Materials in Standards
- Engineer Solutions Instead of React to Mandates
