

| TS 4f 2017 Annual Meeting Summary                              |   |  |
|--|---|--|
| Meeting Date:  | 8/7/2017  |  |
| Items approved by the TS for TS/Subcommittee/Concurrent Ballot |   |  |
| Standard Designation   | Summary of Proposed Changes   | TS Only, Subcommittee Only or Concurrent? (TS / S / C) |
| M 203  | <p>Revise M203M / M203-12 Steel Strand, Low Relaxation Uncoated Seven-Wire for Concrete Reinforcement, to be equivalent with ASTM A416-17. The additional editorial changes will also be made: An additional note for TS consideration: The only change between A416-16 and A416-17 is in Section 3.1.1.1. The 2017 version of A416 deleted the part of the sentence about splicing. If M203 incorporates this change then it would be equivalent to ASTM A416-17.</p> <p>ASTM A416-17: "3.1.1.1 Discussion – The direction of lay is either right-handed or left-handed."</p> <p>AASHTO M203: "3.1.1.1 Discussion – The direction of lay may be either right or left hand; however, strands of different lays should not be spliced together."</p> | Subcommittee   |
| T 244  | Several Editorial changes were approved.  | Subcommittee   |
| M 32   | Sunset standard   | Subcommittee   |
| M 55   | Sunset standard   | Subcommittee   |
| M 221  | Sunset standard   | Subcommittee   |
| M 225  | Sunset standard   | Subcommittee   |
| MP 30  | <p>MP30, Steel Wire and Welded Wire, Plain and Deformed, for Concrete Reinforcement is the equivalent to ASTM A1064. MP30 was on the Fall 2016 SOM ballot to move this newly created equivalency to a provisional standard. The ballot item passed and MP30 was published in 2017. Since MP30 is equivalent to ASTM A1064 which has been in practice for several years now, chair suggests moving it to the fall 2017 SOM ballot to become a full standard.</p>   | Subcommittee   |
| <b>New Task Forces Formed: None</b>                            |   |  |
| Task Force Name  | Summary of Task   | Names of TF Members                                    |
