### V. New Business

- A. Research Proposals
  - 1. 20-7 RPS
  - 2. Full NCHRP RPS
    - ii. **“Sustainable use of available aggregate sources in highway pavements”**, voted as the most important RNS by the AFPOO Geological and Geoenvironmental Engineering Section of TRB in spring 2016.
- B. AMRL/CCRL - Observations from Assessments?
- C. NCHRP Issues
- D. Correspondence, calls, meetings
  - i. T304: Question from Garth Newman about cylindrical measure:

T 304 section 6 , 6.1 Cylindrical measure: the standard allows a “cylindrical measure” of copper meeting ASTM B88 Type M or B88M Type C. Many of the measures owned in the west are made of brass. ITD’s are manufactured by Gilson and are brass.

This does not meet the test method.

I think a Task force or AMRL needs to look into this issue.

Garth Newman
