Sustainable Asphalt Pavements: A Practical Guide

The background of the slide is a composite image. The left side shows a landscape with a path leading towards a body of water under a dark, stormy sky. A large, bright yellow diagonal graphic, resembling a road's double yellow line, runs from the bottom left towards the top right, separating the landscape from a dark, textured background on the right.

Resiliency

- *Resilience:*
 - *the capability of a deformed body to recover its size and shape after being deformed especially caused by a compressive stress*
 - *an ability to recover from or adjust easily to misfortune or change*

Resiliency

- *“Everyone has a plan until they get punched in the mouth.”*
- *Mike Tyson*
- *What does this mean for roads?*
